**Leeton Shire Council LSE Bin stickers**

Hello Stephanie,  
Pricing for 3 Size options for your stickers using a SuperTac, Low Energy Surface (LES) sticker with a gloss over laminate for protection.

This LES sticker is what is specified and in use for the bins in Melbourne.

Price includes delivery to Wagga and installation instructions on how to apply stickers.

Adhesion testing has also been preformed on SVC existing bins and new black bins and laminated bin stickers supplied for SVC and un-laminated for Wagga shire council.

The laminated sticker has a clear gloss overlay that not only protects your printed artwork from UV, fading and deterioration but stops superficial scratching which more than doubles the life of your sign giving you the clear clean message that you are wanting to convey for years longer.

Thank you  
Ian
